Recommended Next Steps:

For Maximum Legal Protection:

1. Trademark Registration:

- File international trademark applications via Madrid Protocol
- Register in major jurisdictions (USPTO, EUIPO, etc.)
- Cover all three names: TSM, USM, OSM

2. Domain Registration:

- Register key domains to prevent cybersquatting:
 - thesocialmedia.com, .io, .ai, .app
 - unifiedsocialmedia.com, .io, .ai, .app
 - onesocialmedia.com, .io, .ai, .app
 - tsm.com, usm.com, osm.com (if available)

3. Copyright Registration:

- Register copyright with US Copyright Office
- Consider registration in other major jurisdictions

4. Monitoring:

- Set up trademark watch services
- Monitor domain registrations
- Track GitHub/GitLab for potential copies
- Monitor AI training dataset disclosures

5. Professional Review:

- Have intellectual property attorney review license
- Consider filing formal trademark applications
- Verify enforceability in target jurisdictions
